### Worksheet 3 Role cards

**Pat**

You are working in a dolphinarium as a dolphin handler and trainer. You started in the post two years ago. You first got into it when you went on a placement to Miami during your veterinary sciences course. You left your studies and trained as a dolphin handler instead. You love your job and have no regrets about giving up your studies.

**Kerry**

You and your partner won some money on the lottery about three years ago. You were bored with your jobs at the paper so you used the money to set up your own business. You now run a pub and bed and breakfast business in the country. The hours are long but you love it.

**Jan**

You write story books for children. You started about three years ago when you were still teaching, but now you have enough work to be able to concentrate wholly on your writing. You miss the classroom sometimes, but you much prefer the stay-at-home lifestyle of being a writer – and it gives you plenty of time to be with your own kids (aged 2 and 3). You'd like to go back to teaching once they're both in school full time.

**Sam**

You have a family of five (twins aged 5 and triplets aged 2). You've just started an online business management course and you're hoping to set up your own business in the next two years or so. You're not sure about the details yet, but you'd like to run a shop that caters for large families and multiple births.

**Alex**

You sing in a pop group. You met the other members of the group when you were working in the record shop about two years ago. You've been doing a lot of touring and your first album is going online next week. You're really excited about it but you still have to work part-time at the shop to make ends meet.
