

Can you survive?

You were travelling to Australia in a private plane when it crashed on a small island. You have no radio, your mobile doesn't work on the island, and you cannot repair the plane. Ships don't often come to this part of the ocean. You have made a raft and plan to sail until you are rescued.

On your raft, you already have ten packets of cookies, ten bottles of water and some fruit from the island. You are wearing shorts and a T-shirt. Choose **six** more things to take with you on the raft.
